si
/

9 IN THE UNITED STATES DISTRICT COURT
10 FOR THE NORTHERN DISTRICT OF CALIFORNIA
11 SAN JOSE DIVISION

12
13 DARYL DE KECZER, individually and on
14 behalf of all others similarly situated,

15 Plaintiff,

16 v.

17 TETLEY USA, INC.,

18 Defendant

CV 12-02409

Case No.

HRL

19
20 **CLASS ACTION AND REPRESENTATIVE
21 ACTION**

22 **COMPLAINT FOR DAMAGES,
23 EQUITABLE AND INJUNCTIVE RELIEF**

24 **JURY TRIAL DEMANDED**

25 Plaintiff, through his undersigned attorneys, brings this lawsuit against Defendant as to
26 his own acts upon personal knowledge, and as to all other matters upon information and belief.
27 In order to remedy the harm arising from Defendant's illegal conduct, which has resulted in
28 unjust profits, Plaintiff brings this action on behalf of a class of California consumers who
purchased Defendant's: (1) Classic Blend Black Tea, (2) British Blend Black Tea, (3) Pure
Green Tea, (4) Iced Tea Blend Tea, and/or (5) Iced Tea Mix Tea ("Misbranded Food Products")
within the last four years.

1 that's where Tetley can help.

2 All black, green, white and red (rooibos) teas contain powerful and natural
3 antioxidants called flavonoids. Flavonoid antioxidant levels are generally
4 higher in green and white teas, as they are taken from the early leaves and buds
5 from the tea plant, *Camellia sinensis*, and undergo less processing than other
6 teas.

7 A growing body of evidence suggests that the antioxidants that occur naturally
8 in tea can help your body in various ways, such as:

- 9 • Neutralize free radicals that can cause cell damage linked to certain cancers
- 10 • Inhibit the oxidation of LDL (bad cholesterol), helping you fight heart
11 disease
- 12 • Boost your immune system⁴ and help reduce infections by as much as 87%
- 13 • A recent 2007 study conducted in the UK revealed that those who drank
14 two or more cups of green tea a day had a 65% lower risk of developing
15 squamous cell carcinoma
- 16 • Studies have shown that black tea may protect lungs from damage caused
17 by exposure to cigarette smoke and may also reduce the risk of stroke
- 18 • A study published in the February 2009 *Journal of Nutrition* suggests that
19 green tea may reduce the risk of breast cancer if plentiful amounts of the
20 beverage are consumed over many years
- 21 • Provide a boost to exercise-induced weight loss

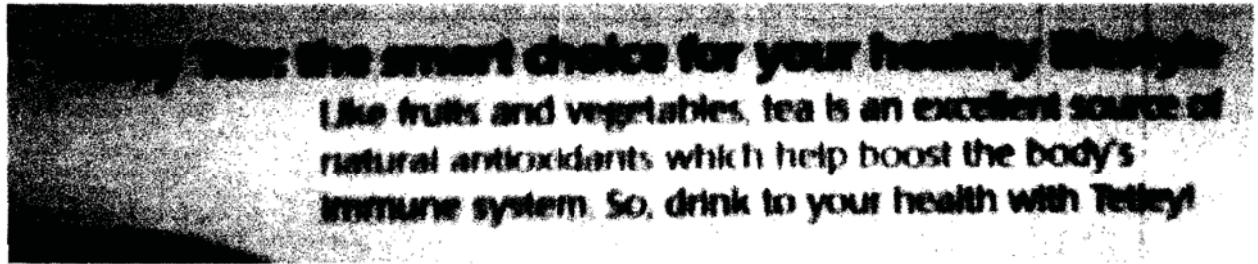

22 http://www.tetleyusa.com/AboutTea_TeaAndHealth.php

23 5. In doing so, Tetley utilizes improper antioxidant, nutrient content, and health
24 claims that have been expressly condemned by the FDA in numerous enforcement actions and
25 warning letters.

26 6. For example, Tetley makes unlawful antioxidant, nutrient content and health
27 claims directly on packages of its tea products. The package back panel of Tetley Iced Tea
28 Blend, shown below, bears the statement: "*Tetley Tea: the smart choice for your healthy
lifestyle: Like fruits and vegetables, tea is an excellent source of natural antioxidants which help
boost the body's immune system. So, drink to your health with Tetley.*" It also states on the front
panel that the Tetley tea is a "natural source of antioxidants."

Such claims have been repeatedly targeted by the FDA as unlawful for tea and other food
products.

12

Tea is the smart choice for your healthy lifestyle.
Like fruits and vegetables, tea is an excellent source of
natural antioxidants which help boost the body's
immune system. So, drink to your health with Tetley!

7. These same unlawful antioxidant, nutrient content and health claims are on each label of the Misbranded Food Products.

8. If a manufacturer is going to make a claim on a food label, the label must meet certain legal requirements that help consumers make informed choices and ensure that they are not misled. As described more fully below, Defendant has made, and continues to make, false and deceptive claims in violation of federal and California laws that govern the types of representations that can be made on food labels. These laws recognize that reasonable consumers are likely to choose products claiming to have a health or nutritional benefit over otherwise similar food products that do not claim such benefits.

9. Identical federal and California laws regulate the content of labels on packaged food. The requirements of the federal Food Drug & Cosmetic Act, 21 U.S.C. § 301, *et seq.* ("FDCA") were adopted by the California legislature in the Sherman Food Drug & Cosmetic Law, California Health & Safety Code § 109875, *et seq.* (the "Sherman Law"). Under FDCA section 403(a), food is "misbranded" if "its labeling is false or misleading in any particular," or if it does not contain certain information on its label or in its labeling. 21 U.S.C. § 343(a).

1 10. Under the FDCA, the term “false” has its usual meaning of “untruthful,” while
2 the term “misleading” is a term of art. Misbranding reaches not only false claims, but also those
3 claims that might be technically true, but still misleading. If any one representation in the
4 labeling is misleading, then the entire food is misbranded, and no other statement in the labeling
5 can cure a misleading statement. “Misleading” is judged in reference to “the ignorant, the
6 unthinking and the credulous who, when making a purchase, do not stop to analyze.” *United*
7 *States v. El-O-Pathic Pharmacy*, 192 F.2d 62, 75 (9th Cir. 1951). Under the FDCA, it is not
8 necessary to prove that anyone was actually misled.

9 11. On August 23, 2010, the United States Food and Drug Administration (“FDA”)
10 sent a warning letter to Unilever, the parent company of Lipton Tea, one of Tetley’s biggest
11 competitors, informing Unilever of Lipton Tea’s failure to comply with FDCA and its
12 regulations (the “FDA Warning Letter,” attached hereto as Exhibit 1 and made a part hereof by
13 reference) for remarkably similar nutrient content claims to those Tetley is presently making on
14 its product labels. The FDA Warning Letter to Unilever stated, in pertinent part:

15 **Unauthorized Nutrient Content Claims**

16 Under section 403(r)(1)(A) of the Act [21 U.S.C. 343(r)(1)(A)], a claim that
17 characterizes the level of a nutrient which is of the type required to be in the
18 labeling of the food must be made in accordance with a regulation promulgated
19 by the Secretary (and, by delegation, FDA) authorizing the use of such a claim.
The use of a term, not defined by regulation, in food labeling to characterize the
level of a nutrient misbrands a product under section 403(r)(1)(A) of the Act.

20 Nutrient content claims using the term “antioxidant” must also comply with the
21 requirements listed in 21 CFR 101.54(g). These requirements state, in part, that
22 for a product to bear such a claim, an RDI must have been established for each of
23 the nutrients that are the subject of the claim (21 CFR 101.54(g)(1)), and these
24 nutrients must have recognized antioxidant activity (21 CFR 101.54(g)(2). The
25 level of each nutrient that is the subject of the claim must also be sufficient to
26 qualify for the claim under 21 CFR 101.54(b), (c), or (e) (21 CFR 101.54(g)(3)).
27 For example, to bear the claim “high in antioxidant vitamin C,” the product must
28 contain 20 percent or more of the RDI for vitamin C under 21 CFR 101.54(b).
Such a claim must also include the names of the nutrients that are the subject of
the claim as part of the claim or, alternatively, the term “antioxidant” or
“antioxidants” may be linked by a symbol (e.g., an asterisk) that refers to the
same symbol that appears elsewhere on the same panel of the product label,
followed by the name or names of the nutrients with recognized antioxidant
activity (21 CFR 101.54(g)(4)). The use of a nutrient content claim that uses the

1 term "antioxidant" but does not comply with the requirements of 21 CFR
2 101.54(g) misbrands a product under section 403(r)(2)(A)(i) of the Act.

3 Your webpage entitled "Tea and Health" and subtitled "Tea Antioxidants"
4 includes the statement, "LIPTON Tea is made from tea leaves rich in naturally
5 protective antioxidants." The term "rich in" is defined in 21 CFR 101.54(b) and
6 may be used to characterize the level of antioxidant nutrients (21 CFR
7 101.54(g)(3)). However, this claim does not comply with 21 CFR 101.54(g)(4)
because it does not include the nutrients that are the subject of the claim or use a
symbol to link the term "antioxidant" to those nutrients. Thus, this claim
misbrands your product under section 403(r)(2)(A)(i) of the Act.

8 This webpage also states: "[t]ea is a naturally rich source of antioxidants." The
9 term "rich source" characterizes the level of antioxidant nutrients in the product
10 and, therefore, this claim is a nutrient content claim (see section 403(r)(1) of the
11 Act and 21 CFR 101.13(b)). Even if we determined that the term "rich source"
12 could be considered a synonym for a term defined by regulation (e.g., "high" or
13 "good source"), nutrient content claims that use the term "antioxidant" must meet
14 the requirements of 21 CFR 101.54(g). The claim "tea is a naturally rich source
of antioxidants" does not include the nutrients that are the subject of the claim or
use a symbol to link the term "antioxidant" to those nutrients, as required by 21
CFR 101.54(g)(4). Thus, this claim misbrands your product under section
403(r)(2)(A)(i) of the Act.

15 The product label back panel includes the statement "packed with protective
16 FLAVONOID ANTIOXIDANTS." The term "packed with" characterizes the
17 level of flavonoid antioxidants in the product; therefore, this claim is a nutrient
18 content claim (see section 403(r)(1) of the Act and 21 CFR 101.13(b)). Even if
19 we determined that the term "packed with" could be considered a synonym for a
20 term defined by regulation, nutrient content claims that use the term
21 "antioxidant" must meet the requirements of 21 CFR 101.54(g). The claim
"packed with FLAVONOID ANTIOXIDANTS" does not comply with 21 CFR
101.54(g)(1) because no RDI has been established for flavonoids. Thus, this
unauthorized nutrient content claim causes your product to be misbranded under
section 403(r)(2)(A)(i) of the Act.

22 The above violations are not meant to be an all-inclusive list of deficiencies in
23 your products or their labeling. It is your responsibility to ensure that all of your
24 products are in compliance with the laws and regulations enforced by FDA. You
25 should take prompt action to correct the violations. Failure to promptly correct
these violations may result in regulatory actions without further notice, such as
seizure and/or injunction.

26 <http://www.fda.gov/ICECI/EnforcementActions/WarningLetters/ucm224509.htm>.

27 12. As shown above, the label of Tetley's Misbranded Food Products represents that
28 the tea products are "an excellent source of natural antioxidants" and also "[a] natural source of

1 antioxidants.” The label also touts claimed health benefits from drinking these tea products. As
2 determined by the FDA in the Unilever/Lipton and other warning letters, such antioxidant,
3 nutrient content and health claims are in violation of 21 U.S.C. § 352(f)(1), and therefore the
4 products are misbranded.

5 13. Defendant has made, and continues to make, food label claims that are prohibited
6 by federal and California law. Under federal and California law, Defendant’s Misbranded Food
7 Products cannot legally be manufactured, advertised, distributed, held or sold. Defendant’s
8 false and misleading labeling practices stem from their global marketing strategy. The
9 violations and misrepresentations are similar across Defendant’s product labels and product
10 lines.

11 PARTIES

12 14. Plaintiff Daryl de Keczer is a resident of San Jose, California who purchased
13 Tetley’s Misbranded Food Products in California during the four (4) years prior to the filing of
14 this Complaint (the “Class Period”).

15 15. Defendant Tetley USA, Inc. is a Delaware corporation with its principle place of
16 business in New Jersey. Tetley USA, Inc. is authorized to do business in California.

17 16. Tetley is a leading producer of retail tea products. Tetley sells its Misbranded
18 Food Products to consumers throughout California via grocery stores, other retail stores and
19 through its website.

20 JURISDICTION AND VENUE

21 17. This Court has original jurisdiction over this action under 28 U.S.C. § 1332(d)
22 because this is a class action in which: (1) there are over 100 members in the proposed class;
23 (2) members of the proposed class have a different citizenship from Defendant; and (3) the
24 claims of the proposed class members exceed \$5,000,000 in the aggregate.

25 18. The Court has jurisdiction over the federal claim alleged herein pursuant to 28
26 U.S.C. § 1331, because it arises under the laws of the United States.

27
28

1 19. The Court has jurisdiction over the California claims alleged herein pursuant to
2 28 U.S.C. § 1367, because they form part of the same case or controversy under Article III of
3 the United States Constitution.

4 20. Alternatively, the Court has jurisdiction over all claims alleged herein pursuant to
5 28 U.S.C. § 1332, because the matter in controversy exceeds the sum or value of \$75,000, and is
6 between citizens of different states.

7 21. The Court has personal jurisdiction over Defendant because a substantial portion
8 of the wrongdoing alleged in this Complaint occurred in California, Defendant is authorized to
9 do business in California, has sufficient minimum contacts with California, and otherwise
10 intentionally avails itself of the markets in California through the promotion, marketing and sale
11 of merchandise, sufficient to render the exercise of jurisdiction by this Court permissible under
12 traditional notions of fair play and substantial justice.

13 22. Because a substantial part of the events or omissions giving rise to these claims
14 occurred in this District and because the Court has personal jurisdiction over Defendant, venue
15 is proper in this Court pursuant to 28 U.S.C. § 1391(a) and (b).

FACTUAL ALLEGATIONS

A. Identical California And Federal Laws Regulate Food Labeling

17 23. Food manufacturers are required to comply with federal and state laws and
18 regulations that govern the labeling of food products. First and foremost among these is the
19 FDCA and its labeling regulations, including those set forth in 21 C.F.R. § 101.
20

21 24. Pursuant to the Sherman Law, California has expressly adopted the federal
22 labeling requirements as its own and indicated that “[a]ll food labeling regulations and any
23 amendments to those regulations adopted pursuant to the federal act, in effect on January 1,
24 1993, or adopted on or after that date shall be the food regulations of this state.” California
25 Health & Safety Code § 110100.

26 25. In addition to its blanket adoption of federal labeling requirements, California
27 has also enacted a number of laws and regulations that adopt and incorporate specific
28 enumerated federal food laws and regulations. For example, food products are misbranded

1 under California Health & Safety Code § 110660 if their labeling is false and misleading in one
2 or more particulars; are misbranded under California Health & Safety Code § 110665 if their
3 labeling fails to conform to the requirements for nutrient labeling set forth in 21 U.S.C. § 343(q)
4 and regulations adopted thereto; are misbranded under California Health & Safety Code §
5 110670 if their labeling fails to conform with the requirements for nutrient content and health
6 claims set forth in 21 U.S.C. § 343(r) and regulations adopted thereto; are misbranded under
7 California Health & Safety Code § 110705 if words, statements and other information required
8 by the Sherman Law to appear on their labeling are either missing or not sufficiently
9 conspicuous; are misbranded under California Health & Safety Code § 110735 if they are
10 represented as having special dietary uses but fail to bear labeling that adequately informs
11 consumers of their value for that use; and are misbranded under California Health & Safety
12 Code § 110740 if they contain artificial flavoring, artificial coloring and chemical preservatives
13 but fail to adequately disclose that fact on their labeling.

14 **B. FDA Enforcement History**

15 26. In recent years the FDA has become increasingly concerned that food
16 manufacturers were disregarding food labeling regulations. To address this concern, the FDA
17 elected to take steps to inform the food industry of its concerns and to place the industry on
18 notice that food labeling compliance was an area of enforcement priority.

19 27. In October 2009, the FDA issued a *Guidance For Industry: Letter Regarding*
20 *Point Of Purchase Food Labeling* to address its concerns about front of package labels (“2009
21 FOP Guidance”). The 2009 FOP Guidance advised the food industry:

22 FDA’s research has found that with FOP labeling, people are less likely to check
23 the Nutrition Facts label on the information panel of foods (usually, the back or
24 side of the package). It is thus essential that both the criteria and symbols used in
25 front-of-package and shelf-labeling systems be nutritionally sound, well-
26 designed to help consumers make informed and healthy food choices, and not be
27 false or misleading. The agency is currently analyzing FOP labels that appear to
28 be misleading. The agency is also looking for symbols that either expressly or by
implication are nutrient content claims. We are assessing the criteria established
by food manufacturers for such symbols and comparing them to our regulatory
criteria.

1 It is important to note that nutrition-related FOP and shelf labeling, while
2 currently voluntary, is subject to the provisions of the Federal Food, Drug, and
3 Cosmetic Act that prohibit false or misleading claims and restrict nutrient content
4 claims to those defined in FDA regulations. Therefore, FOP and shelf labeling
5 that is used in a manner that is false or misleading misbrands the products it
6 accompanies. Similarly, a food that bears FOP or shelf labeling with a nutrient
7 content claim that does not comply with the regulatory criteria for the claim as
8 defined in Title 21 Code of Federal Regulations (CFR) 101.13 and Subpart D of
9 Part 101 is misbranded. We will consider enforcement actions against clear
10 violations of these established labeling requirements. . .

11 ... Accurate food labeling information can assist consumers in making healthy
12 nutritional choices. FDA intends to monitor and evaluate the various FOP
13 labeling systems and their effect on consumers' food choices and perceptions.
14 FDA recommends that manufacturers and distributors of food products that
15 include FOP labeling ensure that the label statements are consistent with FDA
16 laws and regulations. FDA will proceed with enforcement action against products
17 that bear FOP labeling that are explicit or implied nutrient content claims and
18 that are not consistent with current nutrient content claim requirements. FDA will
19 also proceed with enforcement action where such FOP labeling or labeling
20 systems are used in a manner that is false or misleading.

21 28. The 2009 FOP Guidance recommended that “manufacturers and distributors of
22 food products that include FOP labeling ensure that the label statements are consistent with
23 FDA law and regulations” and specifically advised the food industry that it would “proceed with
24 enforcement action where such FOP labeling or labeling systems are used in a manner that is
25 false or misleading.”

26 29. Despite the issuance of the 2009 FOP Guidance, Defendant did not remove the
27 unlawful and misleading food labeling claims from their Misbranded Food Products.

28 30. On March 3, 2010, the FDA issued an “Open Letter to Industry from [FDA
Commissioner] Dr. Hamburg” (hereinafter, “Open Letter”). The Open Letter reiterated the
FDA’s concern regarding false and misleading labeling by food manufacturers. In pertinent part
the letter stated:

In the early 1990s, the Food and Drug Administration (FDA) and the food
industry worked together to create a uniform national system of nutrition
labeling, which includes the now-iconic Nutrition Facts panel on most food
packages. Our citizens appreciate that effort, and many use this nutrition
information to make food choices. Today, ready access to reliable information
about the calorie and nutrient content of food is even more important, given the

1 prevalence of obesity and diet-related diseases in the United States. This need is
2 highlighted by the announcement recently by the First Lady of a coordinated
3 national campaign to reduce the incidence of obesity among our citizens,
particularly our children.

4 With that in mind, I have made improving the scientific accuracy and usefulness
5 of food labeling one of my priorities as Commissioner of Food and Drugs. The
6 latest focus in this area, of course, is on information provided on the principal
7 display panel of food packages and commonly referred to as "front-of-pack"
8 labeling. The use of front-of-pack nutrition symbols and other claims has grown
tremendously in recent years, and it is clear to me as a working mother that such
information can be helpful to busy shoppers who are often pressed for time in
making their food selections. ...

9 As we move forward in those areas, I must note, however, that there is one area
10 in which more progress is needed. As you will recall, we recently expressed
11 concern, in a "Dear Industry" letter, about the number and variety of label claims
12 that may not help consumers distinguish healthy food choices from less healthy
ones and, indeed, may be false or misleading.

13 At that time, we urged food manufacturers to examine their product labels in the
14 context of the provisions of the Federal Food, Drug, and Cosmetic Act that
15 prohibit false or misleading claims and restrict nutrient content claims to those
16 defined in FDA regulations. As a result, some manufacturers have revised their
labels to bring them into line with the goals of the Nutrition Labeling and
Education Act of 1990. Unfortunately, however, we continue to see products
marketed with labeling that violates established labeling standards.

17 To address these concerns, FDA is notifying a number of manufacturers that their
18 labels are in violation of the law and subject to legal proceedings to remove
19 misbranded products from the marketplace. While the warning letters that
20 convey our regulatory intentions do not attempt to cover all products with
21 violative labels, they do cover a range of concerns about how false or misleading
22 labels can undermine the intention of Congress to provide consumers with
23 labeling information that enables consumers to make informed and healthy food
choices

24

25 These examples and others that are cited in our warning letters are not indicative
26 of the labeling practices of the food industry as a whole. In my conversations
27 with industry leaders, I sense a strong desire within the industry for a level
28 playing field and a commitment to producing safe, healthy products. That
reinforces my belief that FDA should provide as clear and consistent guidance as
possible about food labeling claims and nutrition information in general, and
specifically about how the growing use of front-of-pack calorie and nutrient
information can best help consumers construct healthy diets.

1 I will close with the hope that these warning letters will give food manufacturers
2 further clarification about what is expected of them as they review their current
3 labeling. I am confident that our past cooperative efforts on nutrition information
4 and claims in food labeling will continue as we jointly develop a practical,
science-based front-of-pack regime that we can all use to help consumers choose
healthier foods and healthier diets.

5 31. Notwithstanding the Open Letter, Defendant continued to utilize unlawful food
6 labeling claims despite the express guidance of the FDA in the Open Letter.

7 32. In addition to its guidance to industry, the FDA has sent warning letters to
8 industry, including many of Defendant's peer food manufacturers for the same types of
9 unlawful nutrient content claims described above.

10 33. In these letters the FDA indicated that, as a result of the same type of claims
11 utilized by Defendant, products were in "violation of the Federal Food, Drug, and Cosmetic Act
12 ... and the applicable regulations in Title 21, Code of Federal Regulations, Part 101 (21 CFR §
13 101)" and "misbranded within the meaning of section 403(r)(1)(A) because the product label
14 bears a nutrient content claim but does not meet the requirements to make the claim."

15 34. The warning letters were hardly isolated as the FDA has issued other warning
16 letters to other companies for the same type of food labeling claims at issue in this case.

17 35. The FDA stated that the agency not only expected companies that received
18 warning letters to correct their labeling practices but also anticipated that other firms would
19 examine their food labels to ensure that they are in full compliance with food labeling
20 requirements and make changes where necessary. Defendant did not change the labels on its
21 Misbranded Food Products in response to these warning letters.

22 36. Defendant also continued to ignore the 2009 FOP Guidance which detailed the
23 FDA's guidance on how to make food labeling claims. Defendant ignored this guidance as well
24 and continued to utilize unlawful claims on the labels of their Misbranded Food Products. As
25 such, the Defendant's Misbranded Food Products continue to run afoul of 2009 FOP Guidance
26 as well as federal and California law.

27
28

1 37. Despite the FDA's numerous warnings to industry, Defendant has continued to
2 sell products bearing unlawful food labeling claims without meeting the requirements to make
3 them.

4 38. Plaintiff did not know, and had no reason to know, that the Defendant's
5 Misbranded Food Products were misbranded and bore food labeling claims despite failing to
6 meet the requirements to make those food labeling claims.

7 **C. Defendant's Food Products Are Misbranded**

8 39. Pursuant to Section 403 of the FDCA, a claim that characterizes the level of a
9 nutrient in a food is a "nutrient content claim" that must be made in accordance with the
10 regulations that authorize the use of such claims. 21 U.S.C. § 343(r)(1)(A). California
11 expressly adopted the requirements of 21 U.S.C. § 343(r) in § 110670 of the Sherman Law.

12 40. Nutrient content claims are claims about specific nutrients contained in a
13 product. They are typically made on the front of packaging in a font large enough to be read by
14 the average consumer. Because these claims are relied upon by consumers when making
15 purchasing decisions, the regulations govern what claims can be made in order to prevent
16 misleading claims.

17 41. Section 403(r)(1)(A) of the FDCA governs the use of expressed and implied
18 nutrient content claims on labels of food products that are intended for sale for human
19 consumption. *See* 21 C.F.R. § 101.13.

20 42. 21 C.F.R. § 101.13 provides the general requirements for nutrient content claims,
21 which California has expressly adopted. *See* California Health & Safety Code § 110100. 21
22 C.F.R. § 101.13 requires that manufacturers include certain disclosures when a nutrient claim is
23 made and, at the same time, the product contains certain levels of unhealthy ingredients, such as
24 fat and sodium. It also sets forth the manner in which that disclosure must be made, as follows:

25 (4)(i) The disclosure statement "See nutrition information for ___ content"
26 shall be in easily legible boldface print or type, in distinct contrast to other
27 printed or graphic matter, and in a size no less than that required by §101.105(i)
28 for the net quantity of contents statement, except where the size of the claim is
less than two times the required size of the net quantity of contents statement,
in which case the disclosure statement shall be no less than one-half the size of
the claim but no smaller than one-sixteenth of an inch, unless the package

1 complies with §101.2(c)(2), in which case the disclosure statement may be in
2 type of not less than one thirty-second of an inch.

3 (ii) The disclosure statement shall be immediately adjacent to the nutrient
4 content claim and may have no intervening material other than, if applicable,
5 other information in the statement of identity or any other information that is
6 required to be presented with the claim under this section (e.g., see paragraph
7 (j)(2) of this section) or under a regulation in subpart D of this part (e.g., see
8 §§101.54 and 101.62). If the nutrient content claim appears on more than one
9 panel of the label, the disclosure statement shall be adjacent to the claim on
10 each panel except for the panel that bears the nutrition information where it
11 may be omitted.

12 43. An “expressed nutrient content claim” is defined as any direct statement about
13 the level (or range) of a nutrient in the food (e.g., “low sodium” or “contains 100 calories”). See
14 21 C.F.R. § 101.13(b)(1).

15 44. An “implied nutrient content claim” is defined as any claim that: (i) describes the
16 food or an ingredient therein in a manner that suggests that a nutrient is absent or present in a
17 certain amount (e.g., “high in oat bran”); or (ii) suggests that the food, because of its nutrient
18 content, may be useful in maintaining healthy dietary practices and is made in association with
19 an explicit claim or statement about a nutrient (e.g., “healthy, contains 3 grams (g) of fat”). 21
20 C.F.R. § 101.13(b)(2)(i-ii).

21 1. **Defendant Makes Unlawful Antioxidant Claims**

22 45. Federal and California regulations regulate antioxidant claims as a particular type
23 of nutrient content claim. Specifically, 21 C.F.R. § 101.54(g) contains special requirements for
24 nutrient claims that use the term “antioxidant”:

25 (1) the name of the antioxidant must be disclosed;

26 (2) there must be an established Recommended Daily Intake (“RDI”) for that
27 antioxidant, and if not, no “antioxidant” claim can be made about it;

28 (3) the label claim must include the specific name of the nutrient that is an
antioxidant and cannot simply say “antioxidants” (e.g., “high in antioxidant vitamins C and
E”),¹ see 21 C.F.R. § 101.54(g)(4);

¹ Alternatively, when used as part of a nutrient content claim, the term “antioxidant” or “antioxidants” (such as “high in antioxidants”) may be linked by a symbol (such as an asterisk) that refers to the same symbol that appears elsewhere on the same panel of a product label followed by the name or names of the nutrients with the recognized

1 (4) the nutrient that is the subject of the antioxidant claim must also have
2 recognized antioxidant activity, *i.e.*, there must be scientific evidence that after it is eaten and
3 absorbed from the gastrointestinal tract, the substance participates in physiological, biochemical
4 or cellular processes that inactivate free radicals or prevent free radical-initiated chemical
5 reactions, *see* 21 C.F.R. § 101.54(g)(2);

6 (5) the antioxidant nutrient must meet the requirements for nutrient content
7 claims in 21 C.F.R. § 101.54(b), (c), or (e) for “High” claims, “Good Source” claims, and
8 “More” claims, respectively. For example, to use a “High” claim, the food would have to
9 contain 20% or more of the Daily Reference Value (“DRV”) or RDI per serving. For a “Good
10 Source” claim, the food would have to contain between 10-19% of the DRV or RDI per serving,
11 *see* 21 C.F.R. § 101.54(g)(3); and

12 (6) the antioxidant nutrient claim must also comply with general nutrient
13 content claim requirements such as those contained in 21 C.F.R. § 101.13(h) that prescribe the
14 circumstances in which a nutrient content claim can be made on the label of products high in fat,
15 saturated fat, cholesterol or sodium.

16 46. The antioxidant labeling for Tetley’s Misbranded Food Products and the claims
17 on Tetley’s website promoting these products violate California law: (1) because the names of
18 the antioxidants are not disclosed on the product labels; (2) because there are no RDIs for the
19 antioxidants being touted, including flavonoids and polyphenols; (3) because the claimed
20 antioxidant nutrients fail to meet the requirements for nutrient content claims in 21 C.F.R. §
21 101.54(b), (c), or (e) for “High” claims, “Good Source” claims, and “More” claims,
22 respectively; and (4) because Defendant lacks adequate scientific evidence that the claimed
23 antioxidant nutrients participate in physiological, biochemical, or cellular processes that
24 inactivate free radicals or prevent free radical-initiated chemical reactions after they are eaten
25 and absorbed from the gastrointestinal tract.

26
27
28 antioxidant activity. If this is done, the list of nutrients must appear in letters of a type size height no smaller than
the larger of one half of the type size of the largest nutrient content claim or 1/16 inch.

1 47. For example, as discussed in paragraph 6 above, the package label of Tetley's
2 Iced Tea Blend product bears the statements "an excellent source of natural antioxidants" and
3 "[a] natural source of antioxidants." The label further touts the health benefits of the product
4 and compares it to fruits and vegetables. As discussed in paragraph 4 above, Tetley also touts on
5 its website alleged health benefits to be derived from using its tea products. These same
6 violations were condemned in the FDA Warning Letter to Unilever/Lipton discussed above and
7 attached as Exhibit 1. These same violations were condemned in numerous other warning letters
8 to other tea companies including the April 11, 2011 warning letter to Diaspora Tea & Herb Co.,
9 LLC (attached as Exhibit 2) which states in pertinent part:

10 Additionally, your website bears nutrient content claims using the term
11 "antioxidant." Nutrient content claims using the term "antioxidant" must also
12 comply with the requirements listed in 21 CFR 101.54(g). These requirements
13 state, in part, that for a product to bear such a claim, a Recommended Daily
14 Intake (RDI) must have been established for each of the nutrients that are the
15 subject of the claim, 21 CFR 101.54(g)(1), and these nutrients must have
16 recognized antioxidant activity, 21 CFR 101.54(g)(2). The level of each
17 nutrient that is the subject of the claim must also be sufficient to qualify for the
18 claim under 21 CFR 101.54(b), (c), or (e), 21 CFR 101.54(g)(3). Such a claim
19 must also include the names of the nutrients that are the subject of the claim as
20 part of the claim or, alternatively, the term "antioxidant" or "antioxidants" may
21 be linked by a symbol (e.g., an asterisk) that refers to the same symbol that
22 appears elsewhere on the same panel of the product label, followed by the name
23 or names of the nutrients with recognized antioxidant activity, 21 CFR
24 101.54(g)(4). The use of a nutrient content claim that uses the term
25 "antioxidant" but does not comply with the requirements of 21 CFR 101.54(g)
26 misbrands a product under section 403(r)(2)(A)(i) of the Act. The following are
27 examples of nutrient content claims on your website that use the term
28 "antioxidant" but do not include the names of the nutrients that are the subject
of the claim as required under 21 CFR 101.54(g)(4): "Yerba Maté is...rich in...
antioxidants." ; ... "Caffeine-free Green Rooibos...contain[s] high
concentrations of antioxidants...."

23 Additionally, the following are examples of nutrient content claims on your
24 website that use the term "antioxidant," but where the nutrients that are the
25 subject of the claim do not have an established RDI as required under 21 CFR
26 101.54(g)(1): ... "White Tea... contain[s] high concentrations of... antioxidant
27 polyphenols (tea catechins)..." ; ... "Antioxidant rich...222mg polyphenols
28 per serving!"; ... "Antioxidant rich...109mg polyphenols per serving!"□

 The above violations are not meant to be an all-inclusive list of deficiencies in
your products and their labeling. It is your responsibility to ensure that products

1 marketed by your firm comply with the Act and its implementing
2 regulations. We urge you to review your website, product labels, and other
3 labeling and promotional materials for your products to ensure that the claims
4 you make for your products do not cause them to violate the Act. The Act
authorizes the seizure of illegal products and injunctions against manufacturers
and distributors of those products, 21 U.S.C. §§ 332 and 334

5 48. For these reasons, Defendant's antioxidant claims at issue in this Complaint are
6 misleading and in violation of 21 C.F.R. § 101.54 and California law, and the products at issue
7 are misbranded as a matter of law. Misbranded products cannot be legally manufactured,
8 advertised, distributed, held or sold and are legally worthless. Plaintiff and members of the Class
9 who purchased these products paid an unwarranted premium for these products.

10 49. In addition to the FDA Warning Letters to Unilever and Diaspora Tea & Herb
11 Co., LLC discussed above (Exhibits 1 and 2), the FDA has issued numerous warning letters
12 addressing similar unlawful antioxidant nutrient content claims. *See, e.g.*, Exhibit 3 (FDA
13 warning letter dated February 22, 2010 to Redco Foods, Inc. regarding its misbranded Salada
14 Naturally Decaffeinated Green Tea product because "there are no RDIs for (the antioxidants)
15 grapeskins, rooibos (red tea) and anthocyanins"); Exhibit 4 (FDA warning letter dated February
16 22, 2010 to Fleminger Inc. regarding its misbranded TeaForHealth products because the
17 admonition "[d]rink high antioxidant green tea" . . . "does not include the nutrients that are the
18 subject of the claim or use a symbol to link the term antioxidant to those nutrients"). These
19 warning letters were hardly isolated. Defendant is aware of these FDA warning letters.

20 50. Additional evidence of Tetley's knowledge that its antioxidant health claims are
21 improper and misleading is provided by the November 25, 2009 Adjudication of the British
22 Advertising Standards Authority ("ASA"). There, the ASA found that Tetley's print and TV
23 advertisements stating that Tetley products were: "rich in antioxidants that can keep your heart
24 healthy" were misleading. In so holding, ASA stated:

25 Because the evidence we had seen was not directly relevant to the implied claim
26 that green tea, or the antioxidants in it, had general health benefits, we
27 considered it was not sufficient substantiation for that claim. We concluded that
the ad was misleading.

28 On this point, the ad breached CAP (Broadcast) TV Advertising Standards Code

1 rules 5.1.1 (Misleading advertising), 5.2.1 (Evidence), 5.2.2 (Implications),
2 8.3.1(a) (Accuracy in food advertising)

3 The ad must not be broadcast again in its current form. We told Tetley not to
4 imply that a product had greater health benefits than it did if they did not hold
5 substantiation for the implied claims....

6 Adjudication of the ASA Council, Tetley GB Ltd., November 25, 2009.

7 http://www.asa.org.uk/ASA-action/Adjudications/2009/11/Tetley-GB-Ltd/TF_ADJ_47670.aspx

8 51. The types of misrepresentations made above would be considered by a reasonable
9 consumer when deciding to purchase the products. Not only do Tetley's antioxidant, nutrient
10 content and health claims regarding the benefits of "flavonoids" violate FDA rules and
11 regulations, they directly contradict current scientific research, which has concluded: "[T]he
12 evidence today does not support a direct relationship between tea consumption and a
13 physiological AOX [antioxidant] benefit." This conclusion was reported by Dr. Jane Rycroft,
14 Director of Lipton Tea Institute of Tea, in an article published in January, 2011, in which Dr.
15 Rycroft states:

16 Only a few scientific publications report an effect of tea on free radical damage
17 in humans using validated biomarkers in well designed human studies.
18 Unfortunately, the results of these studies are at variance and the majority of
19 the studies do not report significant effects . . .

20 Therefore, despite more than 50 studies convincingly showing that flavonoids
21 possess potent antioxidant activity *in vitro*, the ability of flavonoids to act as an
22 antioxidant *in vivo* [in humans], has not been demonstrated.

23 Based on the current scientific consensus that the evidence today does not
24 support a direct relationship between tea consumption and a physiological
25 AOX benefit...

26 No evidence has been provided to establish that having antioxidant
27 activity/content and/or antioxidant properties is a beneficial physiological
28 effect.

29 Rycroft, Jane, "The Antioxidant Hypothesis Needs to be Updated," Vol. 1, *Tea Quarterly Tea*
30 *Science Overview*, Lipton Tea Institute of Tea Research (Jan. 2011), pp. 2-3.

31 52. This scientific evidence and consensus conclusively establishes the improper
32 nature of the Defendant's antioxidant claims as they cannot possibly satisfy the legal and
33 regulatory requirement that the nutrient that is the subject of the antioxidant claim must also

1 have recognized antioxidant activity, *i.e.*, there must be scientific evidence that after it is eaten
2 and absorbed from the gastrointestinal tract, the substance participates in physiological,
3 biochemical or cellular processes that inactivate free radicals or prevent free radical-initiated
4 chemical reactions, *see* 21 C.F.R. § 101.54(g)(2).

5 **2. Defendant Makes Unlawful Nutritional Content Claims**

6 53. FDA regulations authorize use of a limited number of defined nutrient content
7 claims. In addition to authorizing the use of only a limited set of defined nutrient content terms
8 on food labels, FDA's regulations authorize the use of only certain synonyms for these defined
9 terms. If a nutrient content claim or its synonym is not included in the food labeling regulations
10 it cannot be used on a label. Only those claims, or their synonyms, that are specifically defined
11 in the regulations may be used. All other claims are prohibited. 21 CFR § 101.13(b).

12 54. Only approved nutrient content claims will be permitted on the food label, and all
13 other nutrient content claims will misbrand a food. It should thus be clear which type of claims
14 are prohibited and which are permitted. Manufacturers are on notice that the use of an
15 unapproved nutrient content claim is prohibited conduct. 58 FR 2302. In addition, 21 U.S.C. §
16 343(r)(2) prohibits using unauthorized undefined terms and declares foods that do so to be
17 misbranded.

18 55. In order to appeal to consumer preferences, Defendant has repeatedly made
19 unlawful nutrient content claims about antioxidants and other nutrients that fail to utilize one of
20 the limited defined terms. These nutrient content claims are unlawful because they failed to
21 comply with the nutrient content claim provisions in violation of 21 C.F.R. §§ 101.13 and
22 101.54, which have been incorporated in California's Sherman Law. To the extent that the terms
23 used to describe antioxidants without a recognized daily value or RDI (such as "natural source")
24 are deemed to be a synonym for a defined term like "contain" the claim would still be unlawful
25 because, as these nutrients do not have established daily values, they cannot serve as the basis
26 for a term that has a minimum daily value threshold.

27 56. Similarly, the regulations specify absolute and comparative levels at which foods
28 qualify to make these claims for particular nutrients (*e.g.*, low fat. . . more vitamin C.) and list

1 synonyms that may be used in lieu of the defined terms. Certain implied nutrient content claims
2 (e.g., healthy) also are defined. The daily values (“DVs”) for nutrients that the FDA has
3 established for nutrition labeling purposes have application for nutrient content claims, as well.
4 Claims are defined under current regulations for use with nutrients having established DVs;
5 moreover, relative claims are defined in terms of a difference in the percent DV of a nutrient
6 provided by one food as compared to another. *See. e.g.* 21 C.F.R. §§ 101.13 and 101.54.

7 57. Defendant has repeatedly made unlawful nutrient content claims about
8 antioxidants and other nutrients that fail to utilize one of the limited defined terms appropriately.
9 These nutrient content claims are unlawful because they fail to comply with the nutrient content
10 claim provisions in violation of 21 C.F.R. §§ 101.13 and 101.54, which have been incorporated
11 in California’s Sherman Law.

12 58. For example, claims that Tetley’s teas are “an excellent source of antioxidants”
13 are unlawful Defendant’s teas do not meet the minimum nutrient level threshold to make such a
14 claim which is 20 percent or more of the RDI or the DRV of a nutrient per reference amount
15 customarily consumed.

16 59. The nutrient content claims regulations discussed above are intended to ensure
17 that consumers are not misled as to the actual or relative levels of nutrients in food products.

18 60. Defendant has violated these referenced regulations. Therefore, Defendant’s
19 Misbranded Food Products are misbranded as a matter of federal and California law and cannot
20 be sold or held because they are legally worthless. Defendant has also violated 21 C.F.R. §
21 101.54(g)(1), which prohibits food manufacturers from making claims regarding the nutritional
22 value of their products when the products fail to disclose that no RDI has been established for
23 the touted nutrients.

24 61. For example, Tetley Misbranded Food Products claim to be “an excellent source
25 of antioxidants” or “a natural source of antioxidants” but they fail to disclose that no RDI has
26 been established for any antioxidant nutrient in its tea products, including flavonoids. Thus,
27 these products violate 21 C.F.R. § 101.54(g)(1).
28

1 62. Claims that Tetley products contain or are made with an ingredient such as tea
2 that is represented to contain a particular nutrient, or is prepared in a way that affects the content
3 of a particular nutrient in the food, can only be made if it at least a “good source” of the
4 nutrient that is associated with the ingredient or type of preparation. Thus, Tetley’s statements
5 that tea is a “natural source” of antioxidants trigger a “good source” requirement (10 percent or
6 more of the RDI or the DRV per reference amount customarily consumed) which tea cannot
7 demonstrate. 21 C.F.R. § 101.65(c)(3).

8 63. The type of misrepresentations made above would be considered by a reasonable
9 consumer when deciding to purchase Defendant’s Misbranded Food Products. The failure to
10 comply with the labeling requirements of 21 C.F.R. § 101.54 renders Defendant’s products
11 misbranded as a matter of federal and California law.

12 64. In addition, 21 C.F.R. § 101.65, which has been adopted by California, sets
13 certain minimum nutritional requirements for making an implied nutrient content claim that a
14 product is healthy. For example, for unspecified foods, the food must contain at least 10 percent
15 of the RDI of one or more specified nutrients. Defendant has misrepresented the healthiness of
16 their products while failing to meet the regulatory requirements for making such claims.

17 **3. Defendant Makes Unlawful Health Claims**

18 65. A health claim is a statement expressly or implicitly linking the consumption of a
19 food substance (*e.g.*, ingredient, nutrient, or complete food) to risk of a disease (*e.g.*,
20 cardiovascular disease) or a health-related condition (*e.g.*, hypertension). *See* 21 C.F.R. §
21 101.14(a)(1), (a)(2), and (a)(5). Only health claims made in accordance with FDCA
22 requirements, or authorized by FDA as qualified health claims, may be included in food
23 labeling. Other express or implied statements that constitute health claims, but that do not meet
24 statutory requirements, are prohibited in labeling foods.

25 66. 21 C.F.R. § 101.14, which has been expressly adopted by California, provides
26 when and how a manufacturer may make a health claim about its product. A “Health Claim”
27 means any claim made on the label or in labeling of a food, including a dietary supplement, that
28 expressly or by implication, including “third party” references, written statements (*e.g.*, a brand

1 name including a term such as “heart”), symbols (*e.g.*, a heart symbol), or vignettes,
2 characterizes the relationship of any substance to a disease or health-related condition. Implied
3 health claims include those statements, symbols, vignettes, or other forms of communication
4 that suggest, within the context in which they are presented, that a relationship exists between
5 the presence or level of a substance in the food and a disease or health-related condition (*see* 21
6 CFR § 101.14(a)(1)).

7 67. Further, health claims are limited to claims about disease risk reduction, and
8 cannot be claims about the diagnosis, cure, mitigation, or treatment of disease. An example of
9 an authorized health claim is: “Three grams of soluble fiber from oatmeal daily in a diet low in
10 saturated fat and cholesterol may reduce the risk of heart disease. This cereal has 2 grams per
11 serving.”

12 68. A claim that a substance may be used in the diagnosis, cure, mitigation,
13 treatment, or prevention of a disease is a drug claim and may not be made for a food. 21 U.S.C.
14 § 321(g)(1)(D).

15 69. The use of the term “healthy” is not a health claim but rather an implied nutrient
16 content claim about general nutrition that is defined by FDA regulation. In general, the term
17 may be used in labeling an individual food product that:

18 Qualifies as both low fat and low saturated fat;

19 Contains 480 mg or less of sodium per reference amount
20 and per labeled serving, and per 50 g (as prepared for
21 typically rehydrated foods) if the food has a reference
amount of 30 g or 2 tbsps or less;

22 Does not exceed the disclosure level for cholesterol (*e.g.*,
23 for most individual food products, 60 mg or less per
reference amount and per labeled serving size); *and*

24 Except for raw fruits and vegetables, certain frozen or
25 canned fruits and vegetables, and enriched cereal-grain
26 products that conform to a standard of identity, provides at
27 least 10% of the daily value (DV) of vitamin A, vitamin C,
calcium, iron, protein, *or* fiber per reference amount.
Where eligibility is based on a nutrient that has been added
to the food, such fortification must comply with FDA’s
fortification policy.

28 21 C.F.R. § 101.65(d)(2). The FDA’s definition applies separate criteria to use of healthy on

1 raw, single ingredient seafood or game meat products. 21 C.F.R. § 101.65(d)(2)(ii). FDA's
2 regulation on healthy also encompasses other, derivative uses of health (e.g., healthful,
3 healthier) in food labeling. 21 C.F.R. § 101.65(d).

4 70. Tetley has violated the provisions of 21 C.F.R. § 101.14, 21 C.F.R. § 101.65, 21
5 U.S.C. § 321(g)(1)(D) and 21 U.S.C. § 352(f)(1) on a number of its products and on its
6 websites. For example, the claim on the package back panel that "like fruit and vegetables tea is
7 an excellent source of antioxidants which help boost the body's immune system" is in violation
8 of the aforesaid law. Likewise the numerous claimed health benefits appearing on Tetley's
9 website is in violation of the aforesaid law.

10 71. As FDA found in regard to the therapeutic claims made by Unilever/Lipton and
11 Diaspora Tea & Herb Co. discussed above, the therapeutic claims on Tetley's website and on its
12 labels establish that their products are drugs because they are intended for use in the cure,
13 mitigation, treatment, or prevention of disease. Tetley's Misbranded Food Products are not
14 generally recognized as safe and effective for the above referenced uses and, therefore, the
15 products are "new drugs" under section 201(p) of 21 U.S.C. § 321(p). New drugs may not be
16 legally marketed in the U.S. without *prior* approval from FDA as described in section 505(a) of
17 21 U.S.C. § 355(a). FDA approves a new drug on the basis of scientific data submitted by a
18 drug sponsor to demonstrate that the drug is safe and effective.

19 72. As discussed above and as shown in Exhibits 1 and 2, the FDA has conducted
20 reviews of similar products to Tetley's tea products and concluded that those companies were
21 "in violation of the Federal Food, Drug, and Cosmetic Act ... and the applicable regulations in
22 Title 21, Code of Federal Regulations, Part 101 (21 CFR 101)." FDA found the products to be
23 misbranded stating, "Your product is offered for conditions that are not amenable to self-
24 diagnosis and treatment by individuals who are not medical practitioners; therefore, adequate
25 directions for use cannot be written so that a layperson can use this drug safely for its intended
26 purposes. Thus, your ... product is misbranded under section 502(f)(1) of the Act in that the
27 labeling for this drug fails to bear adequate directions for use [21 U.S.C. § 352(f)(1)]." See
28 Exhibits 1 and 2.

1 73. The package front panel of Tetley's Misbranded Food Products claims a level of
2 "antioxidants" but their products do not contain any antioxidant substance or nutrient with an
3 established RDI. Tetley makes various health related benefits to be derived from using its
4 products but, as with the Lipton and Diaspora Tea & Herb Co. products, Tetley's tea products
5 do not have approval from FDA to make the health related claims. Moreover, the health related
6 claims are in violation of 21 U.S.C. § 352(f)(1) and therefore the products are misbranded.

7 74. Defendant has manufactured, advertised, distributed and sold products that are
8 misbranded under California law. Misbranded products cannot be legally manufactured,
9 advertised, distributed or sold and are legally worthless as a matter of law.

10 **D. Defendant Has Violated California Law**

11 75. Defendant has violated California Health & Safety Code §§ 109885 and 110390
12 which make it unlawful to disseminate false or misleading food advertisements that include
13 statements on products and product packaging or labeling or any other medium used to directly
14 or indirectly induce the purchase of a food product.

15 76. Defendant has violated California Health & Safety Code § 110395 which makes
16 it unlawful to manufacture, sell, deliver, hold or offer to sell any misbranded food.

17 77. Defendant has violated California Health & Safety Code § 110398 which makes
18 it unlawful to deliver or proffer for delivery any food that has been falsely advertised.

19 78. Defendant has violated California Health & Safety Code § 110660 because its
20 labeling is false and misleading in one or more ways, as follows:

21 a. They are misbranded under California Health & Safety Code § 110665
22 because their labeling fails to conform to the requirements for nutrient labeling set forth in 21
23 U.S.C. § 343(q) and the regulations adopted thereto;

24 b. They are misbranded under California Health & Safety Code § 110670
25 because their labeling fails to conform with the requirements for nutrient content and health
26 claims set forth in 21 U.S.C. § 343(r) and the regulations adopted thereto; and
27
28

1 c. They are misbranded under California Health & Safety Code § 110705
2 because words, statements and other information required by the Sherman Law to appear on
3 their labeling either are missing or not sufficiently conspicuous.

4 79. Defendant has violated California Health & Safety Code § 110760 which makes
5 it unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any food that is
6 misbranded.

7 80. Defendant has violated California Health & Safety Code § 110765 which makes
8 it unlawful for any person to misbrand any food.

9 81. Defendant has violated California Health & Safety Code § 110770 which makes
10 it unlawful for any person to receive in commerce any food that is misbranded or to deliver or
11 proffer for deliver any such food.

12 82. Defendant has violated the standard set by 21 C.F.R. § 101.2, which has been
13 incorporated by reference in the Sherman Law, by failing to include on their product labels the
14 nutritional information required by law.

15 83. Defendant has violated the standards set by 21 CFR §§ 101.13, and 101.54,
16 which have been adopted by reference in the Sherman Law, by including unauthorized
17 antioxidant claims on their products. Defendant has violated the standards set by 21 CFR §§
18 101.14, and 101.65, which have been adopted by reference in the Sherman Law, by including
19 unauthorized health and healthy claims on their products.

20 **C. Plaintiff Purchased Defendant's Misbranded Food Products**

21 84. Plaintiff cares about the nutritional content of food and seeks to maintain a
22 healthy diet.

23 85. Plaintiff purchased Defendant's Misbranded Food Products at issue in this
24 Complaint during the Class Period including the following products:

25
26
27
28

1 British Blend, Premium Black Tea

19 86. Plaintiff read the labels on Defendant's Misbranded Food Products, including the
20 antioxidant and nutrient content claims, where applicable, before purchasing them. Plaintiff
21 would have foregone purchasing Defendant's products and bought other products readily
22 available at a lower price.

23 87. Plaintiff relied on Defendant's package labeling including the antioxidant,
24 nutrient content and health labeling claims including the "excellent source of antioxidants,"
25 "natural source of antioxidants" claims, and based and justified the decision to purchase
26 Defendant's products in substantial part on Defendant's package labeling including the
27 antioxidant, nutrient content and health labeling claims including the "excellent source of
28 antioxidants," "natural source of antioxidants" claims.

1 proposed Class; (3) governmental entities; and (4) the Court to which this case is assigned and
2 its staff.

3 95. This action can be maintained as a class action because there is a well-defined
4 community of interest in the litigation and the proposed Class is easily ascertainable.

5 96. Numerosity: Based upon Defendant's publicly available sales data with respect
6 to the misbranded products at issue, it is estimated that the Class numbers in the thousands, and
7 that joinder of all Class members is impracticable.

8 97. Common Questions Predominate: This action involves common questions of
9 law and fact applicable to each Class member that predominate over questions that affect only
10 individual Class members. Thus, proof of a common set of facts will establish the right of each
11 Class member to recover. Questions of law and fact common to each Class member include, for
12 example:

- 13 a. Whether Defendant engaged in unlawful and misleading business
14 practices by failing to properly package and label their Misbranded Food
Products sold to consumers;
- 15 b. Whether the food products at issue were misbranded or unlawfully
16 packaged and labeled as a matter of law;
- 17 c. Whether Defendant made unlawful and misleading antioxidant claims
with respect to their food products sold to consumers;
- 18 d. Whether Defendant made unlawful and misleading nutrient content and
19 health claims with respect to their food products sold to consumers;
- 20 e. Whether Defendant violated California Bus. & Prof. Code § 17200,
California Bus. & Prof. Code § 17500, and the Sherman Law;
- 21 f. Whether Plaintiff and the Class are entitled to equitable and/or injunctive
22 relief;
- 23 g. Whether Defendant's unlawful, unfair and/or deceptive practices harmed
Plaintiff and the Class; and
- 24 h. Whether Defendant was unjustly enriched by their deceptive practices.

25 98. Typicality: Plaintiff's claims are typical of the claims of the Class because
26 Plaintiff bought Defendant's Misbranded Food Products during the Class Period. Defendant's
27 unlawful, unfair and/or fraudulent actions concern the same business practices described herein
28 irrespective of where they occurred or were received. Plaintiff and the Class sustained similar

1 injuries arising out of Defendant's conduct in violation of California law. The injuries of each
2 member of the Class were caused directly by Defendant's wrongful conduct. In addition, the
3 factual underpinning of Defendant's misconduct is common to all Class members and represents
4 a common thread of misconduct resulting in injury to all members of the Class. Plaintiff's
5 claims arise from the same practices and course of conduct that give rise to the claims of the
6 Class members and are based on the same legal theories.

7 99. Adequacy: Plaintiff will fairly and adequately protect the interests of the Class.
8 Neither Plaintiff nor Plaintiff's counsel have any interests that conflict with or are antagonistic
9 to the interests of the Class members. Plaintiff has retained highly competent and experienced
10 class action attorneys to represent their interests and those of the members of the Class. Plaintiff
11 and Plaintiff's counsel have the necessary financial resources to adequately and vigorously
12 litigate this class action, and Plaintiff and counsel are aware of their fiduciary responsibilities to
13 the Class members and will diligently discharge those duties by vigorously seeking the
14 maximum possible recovery for the Class.

15 100. Superiority: There is no plain, speedy or adequate remedy other than by
16 maintenance of this class action. The prosecution of individual remedies by members of the
17 Class will tend to establish inconsistent standards of conduct for Defendant and result in the
18 impairment of Class members' rights and the disposition of their interests through actions to
19 which they were not parties. Class action treatment will permit a large number of similarly
20 situated persons to prosecute their common claims in a single forum simultaneously, efficiently
21 and without the unnecessary duplication of effort and expense that numerous individual actions
22 would engender. Further, as the damages suffered by individual members of the Class may be
23 relatively small, the expense and burden of individual litigation would make it difficult or
24 impossible for individual members of the Class to redress the wrongs done to them, while an
25 important public interest will be served by addressing the matter as a class action. Class
26 treatment of common questions of law and fact would also be superior to multiple individual
27 actions or piecemeal litigation in that class treatment will conserve the resources of the Court
28 and the litigants, and will promote consistency and efficiency of adjudication.

1 111. As a result of Defendant's illegal business practices, Plaintiff and the Class,
2 pursuant to Business and Professions Code § 17203, are entitled to an order enjoining such
3 future conduct and such other orders and judgments which may be necessary to disgorge
4 Defendant's ill-gotten gains and to restore to any Class Member any money paid for the
5 Misbranded Food Products.

6 112. Defendant's unlawful business acts present a threat and reasonable continued
7 likelihood of deception to Plaintiff and the Class.

8 113. As a result of Defendant's conduct, Plaintiff and the Class, pursuant to Business
9 and Professions Code § 17203, are entitled to an order enjoining such future conduct by
10 Defendant, and such other orders and judgments which may be necessary to disgorge
11 Defendant's ill-gotten gains and restore any money paid for Defendant's Misbranded Food
12 Products by Plaintiff and the Class.

13 **SECOND CAUSE OF ACTION**
14 **Business and Professions Code § 17200, et seq.**
15 **Unfair Business Acts and Practices**

16 114. Plaintiff incorporates by reference each allegation set forth above.

17 115. Defendant's conduct as set forth herein constitutes unfair business acts and
18 practices.

19 116. Defendant sold Misbranded Food Products in California during the Class Period.

20 117. Plaintiff and members of the Class suffered a substantial injury by virtue of
21 buying Defendant's Misbranded Food Products that they would not have purchased absent
22 Defendant's illegal conduct as set forth herein.

23 118. Defendant's deceptive marketing, advertising, packaging and labeling of its
24 Misbranded Food Products was of no benefit to consumers, and the harm to consumers and
25 competition is substantial.

26 119. Defendant sold Plaintiff and the Class Misbranded Food Products that were not
27 capable of being legally sold and that were legally worthless. Plaintiff and the Class paid a
28 premium price for the Misbranded Food Products.

1 127. Defendant sold Plaintiff and the Class Misbranded Food Products that were not
2 capable of being sold legally and that were legally worthless. Plaintiff and the Class paid a
3 premium price for the Misbranded Food Products.
4

5 128. As a result of Defendant's conduct as set forth herein, Plaintiff and the Class,
6 pursuant to Business and Professions Code § 17203, are entitled to an order enjoining such
7 future conduct by Defendant, and such other orders and judgments which may be necessary to
8 disgorge Defendant's ill-gotten gains and restore any money paid for Defendant's Misbranded
9 Food Products by Plaintiff and the Class.
10

11 **FOURTH CAUSE OF ACTION**
12 **Business and Professions Code § 17500, *et seq.***
13 **Misleading and Deceptive Advertising**

14 129. Plaintiff incorporates by reference each allegation set forth above.

15 130. Plaintiff asserts this cause of action for violations of California Business and
16 Professions Code § 17500, *et seq.* for misleading and deceptive advertising against Defendant.

17 131. Defendant sold Misbranded Food Products in California during the Class Period.

18 132. Defendant engaged in a scheme of offering Misbranded Food Products for sale to
19 Plaintiff and members of the Class by way of, *inter alia*, product packaging and labeling, and
20 other promotional materials. These materials misrepresented and/or omitted the true contents
21 and nature of Defendant's Misbranded Food Products. Defendant's advertisements and
22 inducements were made within California and come within the definition of advertising as
23 contained in Business and Professions Code §17500, *et seq.* in that such product packaging and
24 labeling, and promotional materials were intended as inducements to purchase Defendant's
25 Misbranded Food Products and are statements disseminated by Defendant to Plaintiff and the
26 Class that were intended to reach members of the Class. Defendant knew that these statements
27 were misleading and deceptive as set forth herein.
28

133. In furtherance of their plan and scheme, Defendant prepared and distributed
within California and nationwide via product packaging and labeling, and other promotional

1 materials, statements that misleadingly and deceptively represented the ingredients contained in
2 and the nature of Defendant's Misbranded Food Products. Plaintiff and the Class necessarily
3 and reasonably relied on Defendants' materials, and were the intended targets of such
4 representations.

5 134. Defendant's conduct in disseminating misleading and deceptive statements in
6 California and nationwide to Plaintiff and the Class was and is likely to deceive reasonable
7 consumers by obfuscating the true ingredients and nature of Defendant's Misbranded Food
8 Products in violation of the "misleading prong" of California Business and Professions Code §
9 17500, *et seq.*

10 135. As a result of Defendant's violations of the "misleading prong" of California
11 Business and Professions Code § 17500, *et seq.*, Defendant has been unjustly enriched at the
12 expense of Plaintiff and the Class. Misbranded products cannot be legally sold and are legally
13 worthless. Plaintiff and the Class paid a premium price for the Misbranded Food Products.

14 136. Plaintiff and the Class, pursuant to Business and Professions Code § 17535, are
15 entitled to an order enjoining such future conduct by Defendant, and such other orders and
16 judgments which may be necessary to disgorge Defendant's ill-gotten gains and restore any
17 money paid for Defendant's Misbranded Food Products by Plaintiff and the Class.

18
19 **FIFTH CAUSE OF ACTION**
20 **Business and Professions Code § 17500, *et seq.***
21 **Untrue Advertising**

22 137. Plaintiff incorporates by reference each allegation set forth above.

23 138. Plaintiff asserts this cause of action against Defendant for violations of California
24 Business and Professions Code § 17500, *et seq.*, regarding untrue advertising.

25 139. Defendant sold Misbranded Food Products in California during the Class Period.

26 140. Defendant engaged in a scheme of offering Misbranded Food Products for sale to
27 Plaintiff and the Class by way of product packaging and labeling, and other promotional
28 materials. These materials misrepresented and/or omitted the true contents and nature of

1 Defendant's Misbranded Food Products. Defendant's advertisements and inducements were
2 made in California and come within the definition of advertising as contained in Business and
3 Professions Code §17500, *et seq.* in that the product packaging and labeling, and promotional
4 materials were intended as inducements to purchase Defendant's Misbranded Food Products,
5 and are statements disseminated by Defendant to Plaintiff and the Class. Defendant knew that
6 these statements were untrue.

7 141. In furtherance of their plan and scheme, Defendant prepared and distributed in
8 California and nationwide via product packaging and labeling, and other promotional materials,
9 statements that falsely advertise the ingredients contained in Defendant's Misbranded Food
10 Products, and falsely misrepresented the nature of those products. Plaintiff and the Class were
11 the intended targets of such representations and would reasonably be deceived by Defendant's
12 materials.

13 142. Defendant's conduct in disseminating untrue advertising throughout California
14 and nationwide deceived Plaintiff and members of the Class by obfuscating the contents, nature
15 and quality of Defendant's Misbranded Food Products in violation of the "untrue prong" of
16 California Business and Professions Code § 17500.

17 143. As a result of Defendant's violations of the "untrue prong" of California
18 Business and Professions Code § 17500, *et seq.*, Defendant has been unjustly enriched at the
19 expense of Plaintiff and the Class. Misbranded products cannot be legally sold and are legally
20 worthless. Plaintiff and the Class paid a premium price for the Misbranded Food Products.

21 144. Plaintiff and the Class, pursuant to Business and Professions Code § 17535, are
22 entitled to an order enjoining such future conduct by Defendant, and such other orders and
23 judgments which may be necessary to disgorge Defendant's ill-gotten gains and restore any
24 money paid for Defendant's Misbranded Food Products by Plaintiff and the Class.

25
26 **SIXTH CAUSE OF ACTION**
Consumers Legal Remedies Act, Cal. Civ. Code §1750, et seq.

27 145. Plaintiff incorporates by reference each allegation set forth above.
28

1 146. This cause of action is brought pursuant to the CLRA. This cause of action does
2 not currently seek monetary relief and is limited solely to injunctive relief. Plaintiff intends to
3 amend this Complaint to seek monetary relief in accordance with the CLRA after providing
4 Defendant with notice pursuant to Cal. Civ. Code § 1782.

5 147. At the time of any amendment seeking damages under the CLRA, Plaintiff will
6 demonstrate that the violations of the CLRA by Defendant were willful, oppressive and
7 fraudulent, thus supporting an award of punitive damages.

8 148. Consequently, Plaintiff and the Class will be entitled to actual and punitive
9 damages against Defendant for its violations of the CLRA. In addition, pursuant to Cal. Civ.
10 Code § 1782(a)(2), Plaintiff and the Class will be entitled to an order enjoining the above-
11 described acts and practices, providing restitution to Plaintiff and the Class, ordering payment of
12 costs and attorneys' fees, and any other relief deemed appropriate and proper by the Court
13 pursuant to Cal. Civ. Code § 1780.

14 149. Defendant's actions, representations and conduct have violated, and continue to
15 violate the CLRA, because they extend to transactions that are intended to result, or which have
16 resulted, in the sale of goods or services to consumers.

17 150. Defendant sold Misbranded Food Products in California during the Class Period.

18 151. Plaintiff and members of the Class are "consumers" as that term is defined by the
19 CLRA in Cal. Civ. Code §1761(d).

20 152. Defendant's Misbranded Food Products were and are "goods" within the
21 meaning of Cal. Civ. Code §1761(a).

22 153. By engaging in the conduct set forth herein, Defendant violated and continues to
23 violate Sections 1770(a)(5), (7) (9), and (16) of the CLRA, because Defendant's conduct
24 constitutes unfair methods of competition and unfair or fraudulent acts or practices in that they
25 misrepresent the particular ingredients, characteristics, uses, benefits and quantities of the
26 goods.

27 154. By engaging in the conduct set forth herein, Defendant violated and continues to
28 violate Section 1770(a)(7) of the CLRA, because Defendant's conduct constitutes unfair

1 methods of competition and unfair or fraudulent acts or practices in that they misrepresent the
2 particular standard, quality or grade of the goods.

3 155. By engaging in the conduct set forth herein, Defendant violated and continues to
4 violate Section 1770(a)(9) of the CLRA, because Defendant's conduct constitutes unfair
5 methods of competition and unfair or fraudulent acts or practices in that they advertise goods
6 with the intent not to sell the goods as advertised.

7 156. By engaging in the conduct set forth herein, Defendant has violated and
8 continues to violate Section 1770(a)(16) of the CLRA, because Defendant's conduct constitutes
9 unfair methods of competition and unfair or fraudulent acts or practices in that they represent
10 that a subject of a transaction has been supplied in accordance with a previous representation
11 when they have not.

12 157. Plaintiff requests that the Court enjoin Defendant from continuing to employ the
13 unlawful methods, acts and practices alleged herein pursuant to Cal. Civ. Code § 1780(a)(2). If
14 Defendant is not restrained from engaging in these practices in the future, Plaintiff and the Class
15 will continue to suffer harm.

16 **SEVENTH CAUSE OF ACTION**
17 **Restitution Based on Unjust Enrichment/Quasi-Contract**

18 158. Plaintiff incorporates by reference each allegation set forth above. As a result of
19 Defendant's unlawful, fraudulent and misleading labeling, advertising, marketing and sales of
20 Defendant's Misbranded Food Products, Defendant was enriched at the expense of Plaintiff and
21 the Class.

22 159. Defendant sold Misbranded Food Products to Plaintiff and the Class that were
23 not capable of being sold or held legally and which were legally worthless. It would be against
24 equity and good conscience to permit Defendant to retain the ill-gotten benefits they received
25 from Plaintiff and the Class, in light of the fact that the products were not what Defendant
26 purported them to be. Thus, it would be unjust and inequitable for Defendant to retain the
27 benefit without restitution to Plaintiff and the Class of all monies paid to Defendant for the
28 products at issue.

NINTH CAUSE OF ACTION
Magnuson-Moss Act (15 U.S.C. § 2301, et seq.)

172. Plaintiff incorporates by reference each allegation set forth above.

173. Plaintiff and members of the Class are “consumers” as defined by 15 U.S.C. § 2301(3).

174. Defendant is a “supplier” and “warrantor” as defined by 15 U.S.C. § 2301(4) & (5).

175. Defendant’s food products are “consumer products” as defined by 15 U.S.C. § 2301(1).

176. Defendant’s nutrient and health content claims constitute “express warranties.”

177. Defendant, through its package labels, creates express warranties by making the affirmation of fact and promising that its Misbranded Food Products comply with food labeling regulations under federal and California law.

178. Despite Defendant’s express warranties regarding their food products, it does not comply with food labeling regulations under federal and California law.

179. Defendant breached its express warranties regarding their Misbranded Food Products in violation of 15 U.S.C. §§ 2301, et seq.

180. Defendant sold Plaintiff and members of the Class Misbranded Food Products that were not capable of being sold or held legally and which were legally worthless. Plaintiff and the Class paid a premium price for the Misbranded Food Products.

181. As a direct and proximate result of Defendant’s actions, Plaintiff and the Class have suffered damages in an amount to be proven at trial.

JURY DEMAND

Plaintiff hereby demands a trial by jury of her claims.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff, individually and on behalf of all others similarly situated, and on behalf of the general public, prays for judgment against Defendant as follows:

A. For an order certifying this case as a class action and appointing Plaintiff and his

1 counsel to represent the Class;

2 B. For an order awarding, as appropriate, damages, restitution or disgorgement to
3 Plaintiff and the Class for all causes of action other than the CLRA, as Plaintiff does not seek
4 monetary relief under the CLRA, but intends to amend his Complaint to seek such relief;

5 C. For an order requiring Defendant to immediately cease and desist from selling
6 their Misbranded Food Products in violation of law; enjoining Defendant from continuing to
7 market, advertise, distribute, and sell these products in the unlawful manner described herein;
8 and ordering Defendants to engage in corrective action;

9 D. For all equitable remedies available pursuant to Cal. Civ. Code § 1780;

10 E. For an order awarding attorneys' fees and costs;

11 F. For an order awarding punitive damages;

12 G. For an order awarding pre-and post-judgment interest; and

13 H. For an order providing such further relief as this Court deems proper.

14 Dated: May 11, 2012

Respectfully submitted,

16 Ben F. Pierce Gore
